

Optical Cable Distribution Panel (Model No.: WIM-OCDP)

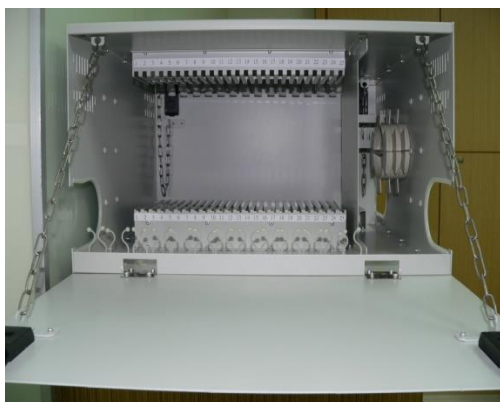

A. Where to installation

B. Optical Cable Distribution Panel

Features

To be equipped in Telecomm central office or Telecomm equipment room to fit in with termination of optical fiber cable, also it is capable of proceeding test, intercross, patching, management when communication being put in order, or optical fiber cable is being under installation.

WIM-OCDP-FMC25

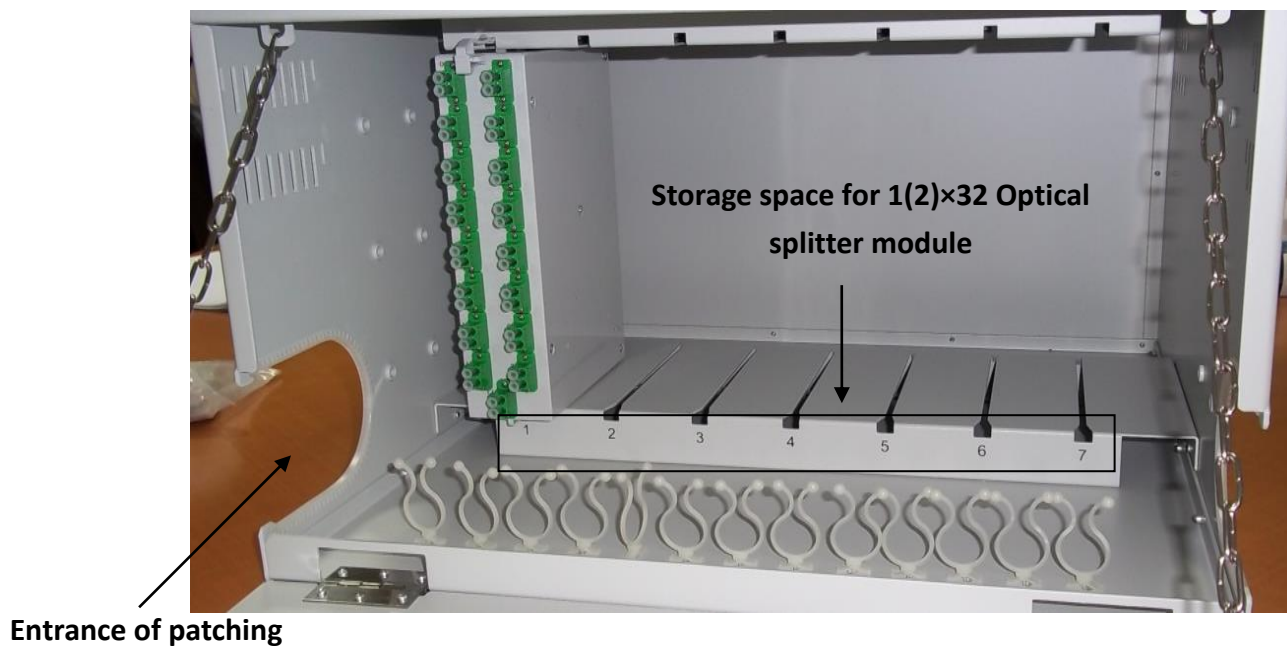

WIM-OCDP-SMC7

C. Model category and Specification

Model No.	Category of fiber and module	Capacity	Box Dimension H x W x D(mm)
WIM-OCDP-SMC7	1(2) x 32 Optical splitter module	7 set	265 x 430 x 450
WIM-OCDP-FMC25 (There are five kinds of module to be selected according to required.)	12 fiber/clustered fiber module 、 12 fiber/4 fiber fan-out module 、 8 fiber/4MT fiber adapter fan-out module 、 8 fiber/8MT fiber adapter fan-out module 、 1(2) x 4 、 1(2) x 8 optical splitter module	25 set	265 x 430 x 450

D. Inner composition
